IWC Water Leadership Program

Trevor Sultana
Water Directorate Scholarship Recipient 2019
What is ‘leadership’

• International Water Centre - A process of influence that accomplishes three outcomes:
  • Direction: a shared understanding (vision) of common goals and strategy.
  • Alignment: the coordination of resources and activities.
  • Commitment: personal commitment to collective success.

McCauley (2014).
Leadership vs Management
(Kotter, 1990)

Management
Coping with Complexity
• Budgets
• Small, Isolated Problems
• Stability
• Today and Tomorrow

Leadership
Coping with Change
• Vision
• Large, complex problems
• Long Term Planning
• The Future
Why Invest in Leadership?
Leadership is about Influence

“The key to successful leadership today is influence, not authority.”

Dr Ken Blanchard
What is the
IWC Water Leadership Program?
Key features

• A nine-month, feedback intensive leadership development program that runs each year (Dec – Aug).
• Aims to help emerging water leaders at the project to middle management level to initiate and drive change.
• Has been running since 2011, with ~25 participants per year.
• Involves a diverse range of learning methods / activities.
• The design and content is informed by IWC research.
Specific aims of the program

- To help emerging water leaders to be more effective at exercising influence, driving change and advancing more integrated forms of water management.

- To build self-awareness.
  - To identify specific leadership development needs.
  - To strengthen key leadership skills.
  - To help participants to continue to develop as leaders over their careers.
Aims of the program (cont.)

- To facilitate many developmental experiences that provide:
  - challenge;
  - feedback;
  - support; and
  - reflection.
- To foster a peer support network.
- To provide easy access to relevant leadership literature.
Program philosophy

• Leadership can be taught and learnt.
• A ‘feedback-intensive’ program design will be most effective.
  ● The program should be informed by research.
• The design should allow opportunities to reflect deeply and build self-awareness.
  ● The design should prepare emerging leaders to play common leadership roles in the water sector.
Program philosophy (cont.)

• Participants should own their development process.
  • Individual Leadership Development Plan (ILDP)

✔ The ‘70:20:10 rule’
  • 10% from structured learning
  • 20% from feedback and support from others
  • 70% from on-the-job experience

• The program should involve academic specialists and industry leaders.

✔ It should be enjoyable!
My Experience
First steps

• Reflection – what did I want to work on?
  • Be stronger and more confident about decisions
  • Take demands/suggestions without acting on them straight away
  • Be consistent
  • Be more direct and act on issues straight away
  • Be a stronger leader with clearly defined ethics and beliefs, and be consistent with them
  • Be someone my staff can rely on

• Prepare for the 5 Day Intensive in Brisbane

• **360 Degree Feedback – myself and my colleagues**
February Workshop
5 Days of Intensive Leadership Learning
Key Takeaways

• Feedback – SBI Method (Situation, Behaviour, Impact)
  • Proven method for providing useful feedback

• E.g.
  • Situation – “In the meeting this morning.....”
  • Behaviour – “....you were talking to Kyle a fair bit while Jan was speaking......”
  • Impact – “...which I felt was disrespectful towards Jan.”
Key Takeaways

- 6 Leadership Roles (Taylor et al. 2015)
  - Project Champion – Initiate and push change
  - Enabling Leader – Provides the environment to foster and create change for others (staff)
  - Cross-Boundary Leader – Leads a team from different departments/organisations with little authority
  - Thought Leader – Provides high levels of credibility and expertise
  - Strategic Leader – Provides a shared vision, and strategy to achieve it
  - Trusted Advisor – Credible, independent expert who influences and directs change politically
Key Takeaways

• 5 Practices of Transformational Leadership (Kouzes & Posner, 2007)
  • Model the Way – Lead by example
  • Inspire a Shared Vision – Provide the vision for change
  • Challenge the Process – Seek ways to change and take appropriate risks
  • Enable Others to Act – provide the environment for others to thrive
  • Encourage the Heart – Recognise contributions and celebrate victories
Key Takeaway – Shared Experiences
During the Program
Individual Leadership Development Plan (ILDP)

• Purpose
  • Strategy to improve as a leader
  • Identify what I need to improve on and how I will improve on it

• My Three Areas of Focus
  • Self Leadership – How I manage myself to be the best I can be
  • Team Leadership – How I lead a team and get the most out of them
  • Authenticity – Be the person behind the role
Online Discussion Activities

• Self Leadership: Leading Yourself for Excellence
• Apollo 13 – A Film Case Study
  • Jim Lovell
  • Gene Kranz
• Leadership Pitfalls and the Correct Execution of Strategy
• 12 Angry Men – A Film Case Study
  • Juror No. 8 (Henry Fonda)
• Exploring 3 Leadership Scenarios
Coaching Sessions with Coach Wouter

• Mentoring vs Coaching

• Coaching – GROW
  • Goal
  • Reality
  • Options
  • What’s Next?
Mentoring

• Need to develop one or more mentoring relationships as part of the program
• Need to have at least 3 mentoring conversations during the program
• Module on mentoring provides some guidance
• Great way to get advice!
Leadership Project

- Incorporated into the Individual Leadership Development Plan
- Work-related (or any) project involving leadership
- Opportunity to apply aspects from program to your workplace
- Incorporated into Leadership Plan
- To be completed (or near completion) before end of program
- LEADERSHIP vs MANAGEMENT
My Project – Mentoring Program

• Develop the basis of a mentoring program for the Water Directorate

• Would address some areas of focus in the Directorate’s Strategic Plan
  • Networking
  • Training for Regional Councils
  • Improve Project Management capabilities

• Investigate how others have facilitated similar programs
  • What they did well
  • What they didn’t do well
  • How it was structured

• Areas of Leadership used
  • Influence – Getting others on board with my idea
  • Networking – Using my networks to get information/ideas for program
  • Project Champion – Pushing positive change
How can you access the IWC Water Leadership Program?
Scholarship option

• Scholarships open on 1 July and close on 30 September.
