Central West Sustainable Roads Forums

Overview
Hear about and explore strategies, case studies, innovation and resources for sensible, sustainable procurement with one of councils highest costs - roads. This forum is an opportunity for engineers, fleet and procurement officers as well as environmental practitioners to discover many alternative materials that are available to the civil construction industry and hear about their durability, reliability and certification. There will also be a number of suppliers brought directly to you, showcasing technology and innovation in recycled roadbase and construction. There will be opportunities to network with your colleagues and to connect with suppliers and environmental innovators.

Who should attend
Engineers, Asset Managers, Environmental Managers, Fleet and Procurement Managers. Councillors and Mayors are also welcome.
